Objective:

Passionate and analytical professional transitioning from a background in finance to the tech industry, aiming to leverage a strong foundation in problem-solving, data analysis, and a passion for programming to secure a Junior Backend Developer position. Eager to contribute a unique perspective and a keen interest in backend technologies to develop robust and scalable solutions at your company.

Education:

Bachelor of Economic and Finance at Royal Melbourn Institute of Technology (RMIT), Ho Chi Minh city, 2012-2016

Vocational Degree in Software engineer at VTC Academy, Ho Chi Minh city, 2022-Present (Expected to graduate in 2025)

Master's degree in business (MBA) at Western Sydney University, Ho Chi Minh city, 2023-Present (Expected to graduate in 2025)

Skills:

Programming Languages: Java, Python, C#

Web Technologies: HTML, CSS, JavaScript

Database Systems: MySQL, H2

Frameworks: Spring, .Net

Version Control: Git

Tools: IntelliJ, Visual Studio Code, Visual Studio, Postman

Agile/Scrum: Basic understanding of principles

Problem Solving: Analytical thinking, logical reasoning, creative
thinking, attention to detail, decision making, critical thinking,
adaptability, collaboration, resourcefulness.

Professional Experience:

Intern - KPMG Co. Ltd, Ho Chi Minh city | June 2015 – September 2015]

- Responsible for analyzing financial data, assisting in the preparation of reports,
  and providing support in financial audits, thereby gaining valuable insights into
  financial processes and best practices within a leading global firm.

Vice CEO Assistant – Ho Chi Minh City Securities Corporation (HSC), Ho Chi
Minh | November 2016 – May 2017]

- I was tasked with supporting role in shaping pricing and marketing
  strategies, leveraging market trends and financial insights to drive
  competitive positioning and business growth.

Financial Analyst - Ho Chi Minh City Securities Corporation (HSC), Ho Chi
Minh | [June 2017 – March 2021]

- I specialized in crafting comprehensive reports on companies and
industries, delivering critical insights for internal stakeholders and
external clients.

Sales Manager – Binh An High Tech Agriculture Company Ltd, Ho Chi Minh |
[February 2022 – Present]

- I spearhead customer acquisition and retention, oversee distribution and
delivery to wholesalers, and meticulously manage the accounting and
financial performance of my division, effectively orchestrating the
operations of a dynamic and vital segment of the business.

Projects:

Class Dojo – A full-stack web application that allows teachers to perform
traditional class activities such as taking roll, give out activities, award
points, and keep track of students' performance in an efficient way. I'am
the team leader and work mainly on the back-end of the application. The
project tech stack include:

Front end: html, tail wind css, react js, react router dom, axion.

Back end: Java, spring boot, Hibernate, spring security, jwt

Database: MySql

Could: AWS RDS for database deployment, AWS EC2 for backend deployment and
Vercel for frontend deployment.

- Our most challenging experience during this project was that our front-
  end, which is deployed through Vercel, uses HTTPS as default while our
  backend which is deployed on EC2, which uses HTTP. As a result, we got
  mixed content blocked right before our presentation.

Certifications:

CFA Level 1 – CFA Institute | 2016

IETLS 8.0 – IDP Education | June 202

Awards and Honors:

Golden Key award – Golden Key International Honour Society| 2015
